

HOW 2

KOMPERDELL
www.komperdell.com

Changing tip (Recommended only for dealer)

1. Heat the tip that is to be removed with a heat gun or hair dryer until you can pull it off
2. Put a small amount of multi-component adhesive inside the bottom section of the pole
3. Press the new tip firmly onto the pole. The new tip should not slip after proper installation.

Note: To exit fullscreen mode press ESC
